

## Pictures of some of our locos

A running shed would enable our locomotives to have a more suitable home with greater security. Also it would increase flexibility at the railway, meaning better events and easier operation.

# Buy a Brick Appeal

## Help us build a Running Shed

## Why do we need a Running Shed?

A Running Shed will enable us to provide secure, undercover storage for two operational locomotives. For both preparation of steam and diesel stock indoors and light maintenance work. This shed will better preserve our collection and help ensure it lasts for many more years into the future. It will also give us

more space in the yard and enable a better operating railway! The building work is programmed to start in 2014, subject to

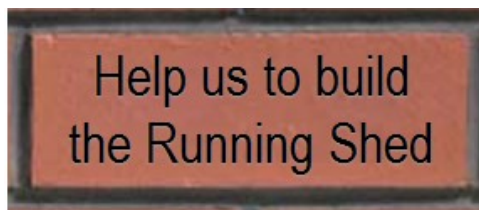

Council Planning Applications and other factors beyond our control, but design and preparatory work is under way.

## How can you help?

We need to raise £40,000 to build the running shed, you can help by buying a brick at £2.50 each. Please complete the donation form and return to one of the shop volunteers or in the post (address on the back).

## Want to show a little something more?

For £30, you can have a name engraved on a brick, which will be used in the construction of the running shed. (16 characters on each line, 2 lines maximum.)

These bricks will be placed in a prominent position on the running shed wall. Great idea for yourself, a present, or in memory of someone?

If you wish to follow the progress of the running shed, please visit our website or become a member of the railway.

If you have any questions about the running shed, or would like to discuss further sponsorship opportunities please contact one of our volunteer team.
